

We are running a study to investigate if the repair of one flexor tendon is as effective as the repair of both. Would you like to participate?

If you agree to participate, you will be allocated by a computer to one of two treatments

Followed by clinic visit within 7 days, 6 weeks and 3 months after surgery
And

Questionnaire completion can be completed by any way you prefer by either

£10 sent on completion of 6 month questionnaire.

If you agreed to be contacted for the study interview, the researcher will be in touch.

If you are interested in finding out more please ask a member of your care team.

Or visit the study website at: www.flaretrial.com
